SEGULA

SEGULA is een Duits merk van LED lichtbronnen dat al 15 jaar staat voor uitmuntende kwaliteit en gepatenteerde innovatie. Bent u op zoek naar een betrouwbare standaard retrofit lamp of naar een waanzinnige EYE-catcher...bij SEGULA vindt u ongetwijfeld wat u nodig heeft.

SEGULA est une marque allemande de sources lumineuses LED qui, depuis 15 ans, est synonyme d'excellence en termes de qualité et d'innovation brevetée. Que vous soyez à la recherche d'une ampoule standard fiable ou d'une pièce qui attire le regard... chez SEGULA, vous êtes sûr de trouver ce qu'il vous faut.

SEGULA is a German brand of LED lightbulbs that stands for excellence in quality and patented innovation for over 15 years. Are you looking for a reliable standard retrofit bulb or an extraordinary EYE catcher...with SEGULA, you are sure to find what you need.

PAGE: 73 - 89

PERLUCI

Het huismerk van Quality LEDs biedt u de mogelijkheid om uw verlichtingsproject te personaliseren. Onze in België gemaakte plafondplaten zorgen ervoor dat uw projecten net dat tikkeltje meer krijgen!

La marque propre de Quality LEDs vous offre la possibilité de personnaliser votre projet d'éclairage. Fabriquées en Belgique, nos bases de plafond donneront à vos projets le petit plus qui fait la différence !

Quality LEDs' own brand offers you the opportunity to personalize your lighting project. Made in Belgium, our ceiling plates will give your projects just that extra touch!

PAGE: 90 - 100

AMARCORDS

Een Italiaanse fabrikant met productie van hoogwaardige designverlichting in Milaan. Amarcords is misschien niet het grootste bedrijf in omvang, maar blinkt uit in kwaliteit, afwerking en originaliteit. De vele kleurencombinaties van het Mono-fase railsysteem zorgen voor zeer eigentijdse creaties en heel veel mogelijkheden.

Fabricant italien produisant des luminaires design de haute qualité à Milan. Amarcords n'est peut-être pas la plus grande société, mais elle excelle en termes de qualité, d'exécution et d'originalité. Les nombreuses combinaisons de couleurs du système de rails Monophasé permettent des créations très contemporaines et offrent beaucoup de possibilités.

An Italian manufacturer with production of high-quality design lighting in Milan. Amarcords may not be the biggest company in size but it excels in quality, craftsmanship and originality. The numerous colour combinations of the Monophase track system provide very contemporary creations and lots of possibilities.

PAGE: 101 - 106

Art Maker

Deze Belgische ontwerper met eigen productie in de Belgische Ardennen is echt het ontdekken waard. Niet alleen worden deze volledig houten pareltjes gemaakt zonder lijm of schroeven, ze vullen ruimtes en doen monden openvallen. Om het helemaal duurzaam en ecologisch te maken wordt er voor elk geproduceerd armatuur een boom gepland, kan het nog beter?

Ce designer belge dont la production est située dans les Ardennes, mérite vraiment d'être découvert. Non seulement ces bijoux en bois sont fabriqués sans colle ni vis, mais ils remplissent les espaces et ne vous laissent pas indifférents... Pour que ce soit totalement durable et écologique, un arbre est planté pour chaque luminaire produit, peut-on faire mieux ?

This Belgian designer with its own production in the Belgian Ardennes is really worth discovering. Not only are these all-wood jewels made without glue or any screws, they fill spaces and make mouths drop open. To make it completely sustainable and ecological, a tree is planted for each luminaire produced, can it get any better?

PAGE: 107 - 122

think paper

Handgemaakte lampen gemaakt uit gerecycleerd papier. Deze in Nederland ontworpen en geproduceerde lampen zijn tijdloos en maken van elke ruimte iets magisch. Bovenop het milieu doe je vooral jezelf een plezier als je kiest voor één van deze mooie duurzame lampen.

Des suspensions réalisées à la main en carton recyclé. Conçues et produites aux Pays-Bas, ces lampes intemporelles transforment votre intérieur en quelque chose de magique. En plus d'être éco-responsable, ces luminaires vous donneront entière satisfaction.

Handmade pendant lamps made from recycled paper. Designed and produced in the Netherlands, these timeless lampshades turn any space into something magical. On top of the environment, you are mostly doing yourself a favour when you choose one of these beautiful sustainable lamps.

PAGE: 123 - 126

BLOS™

Nu eindelijk ook mooie hanglampen voor buiten. Dankzij de Nederlandse ontwerpstudio BLOS kunt u nu ook genieten van duurzame, handgemaakte buitenverlichting. Ze gaan van klein tot HEEL groot...voor een buitenproject met een IBIZA gevoel zit je bij BLOS helemaal goed!

Voici enfin de belles lampes suspendues pour l'extérieur. Grâce au studio de design néerlandais BLOS, vous pouvez désormais profiter d'un éclairage extérieur durable et fabriqué de façon artisanale. La gamme s'étend du petit au TRES grand modèle... pour un projet d'extérieur avec une touche d'IBIZA... BLOS est le choix à faire !

Now finally beautiful pendant lights for outdoor use. Thanks to Dutch design studio BLOS, you can now enjoy sustainable, handmade outdoor lighting. They range from small to HUGE...for an outdoor project with an IBIZA vibe, BLOS is the perfect choice!

SEGULA

ONZE VISIE

Sinds meer dan 15 jaar staat het merk SEGULA voor innovatie, hoge kwaliteit en een tijdloos design. Deze principes zijn steeds bepalend geweest voor de samenstelling van ons gamma en dit sinds het prille begin.

Voor de meeste mensen is het licht van een klassieke gloeilamp nog steeds het mooiste en aangenaamste licht. Door zijn uniforme spectrum, zijn warme lichtkleur

NOTRE VISION

Depuis plus de 15 ans, la marque SEGULA est synonyme d'innovation, de haute qualité et de design intemporel. Ces principes ont toujours déterminé la composition de notre gamme et ce, depuis le début.

Pour la majorité des personnes, la lumière d'une lampe à incandescence classique reste la plus belle et la plus agréable. En raison de son spectre uniforme, de sa couleur chaude et de son bon rendu des

OUR VISION

For more than 15 years, the brand SEGULA has stood for innovation, high quality and timeless design. These principles have always been decisive for the composition of our range from the very beginning.

For most people, the light from the classic light bulb is still the most beautiful and pleasant light.

Due to its uniform spectrum, its warm light colour and its good colour rendering, this

en zijn mooie kleurweergave leunt dit licht namelijk zeer dicht aan bij natuurlijk zonlicht. Met onze SEGULA lampen brengen we dit aangename, warme licht van gloeilampen terug! Ze bieden namelijk een uitstekende kleurweergave, een excellente kwaliteit en mooie decoratieve looks terwijl ze gebruik maken van de energiezuinige en duurzame LED-technologie. Het economische gebruik van grondstoffen en het vermijden van giftige stoffen dragen bij tot een hoge recycleerbaarheid van deze lampen. Vervang dus al uw gloeilampen, halogeenlampen en spaarlampen

couleurs, cette lumière est très similaire à la lumière naturelle du soleil. Avec nos lampes SEGULA, nous faisons revivre la lumière agréable et chaleureuse des lampes à incandescence !

Elles offrent un excellent rendu des couleurs, une qualité exceptionnelle et un bel aspect décoratif tout en utilisant une technologie LED économe en énergie et durable. L'utilisation économique des matières premières et l'absence de substances toxiques contribuent au bon recyclage de ces lampes. Remplacez donc toutes vos lampes à incandescence, halogènes et éco-

light comes very close to natural sunlight. With our SEGULA lamps we bring back this pleasant, warm light of light bulbs! They offer excellent colour rendition, an excellent quality and beautiful decorative looks while using energy-efficient and durable LED technology.

The economical use of raw materials and the avoidance of toxic substances contribute to the high recyclability of these bulbs. So replace all your incandescent halogen bulbs and energy-saving bulbs with high-quality, efficient and ecological bulbs from SEGULA.

door de kwalitatieve, efficiënte en ecologische lampen van SEGULA. Op deze manier dragen we samen ons steentje bij aan een gezondere omgeving.

nomiques par des lampes de haute qualité, efficaces et écologiques de SEGULA. De cette façon, nous contribuons tous à un environnement plus sain.

In this way together we can contribute to a healthier environment.

BETROUWBAAR

Het systeem is schaalbaar en uit te breiden met:

- Relais (Schakelen en/of Screen-, en Motorsturing)
- DALI uitgang.
- DMX regeling (in en uit).
- RS232 koppeling voor bijvoorbeeld Crestron en AMX.
- LED-drivers.
- 0(1)-10V sturingen.
- KNX

EIGENSCHAPPEN

- 16 Bit oftewel 65.536 stappen voor perfect en volledig naar nul dimmen.
- Geen minimale belasting.
- Stabiel bij frequentie- en spanning schommeling & geschikt voor generator gebruik 45-65 Hz.
- Waarborging verlichting; altijd te bedienen met de potmeters op de dimmers.
- Continue diagnose van de aangesloten voeding en belastingen.
- Elektronische beveiliging tegen kortsluiting van vaste uitgangen < 10 ms.
- Crossfade 0-30 sec. tussen de presets, afzonderlijk instelbaar voor de presets 1-4, 5-8 & 9-12.

FIABILITÉ

Le système est évolutif et extensible avec:

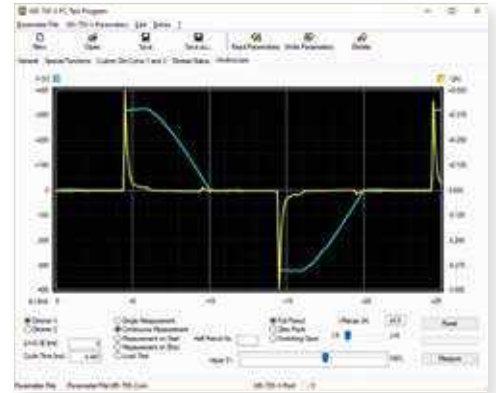

- Relais (de commutation et/ou d'écran, et de contrôle de moteur).
- Sortie DALI. • Contrôle DMX (entrée et sortie).
- Liaison RS232 pour Crestron et AMX par exemple.
- Drivers LED.
- Contrôles 0(1)-10V.
- KNX

CARACTERISTIQUES

- 16 bits ou 65 536 niveaux pour un dimming parfait de 0 à 100.
- Pas de charge minimale.
- Stabilité de la fréquence et de la tension, convient au fonctionnement des compteurs 45-65 H
- garantie de luminosité; toujours gérable avec les potentiomètres des dimmers.
- Diagnostic continu des alimentations et charges connectées
- Sorties fixes en court-circuit, court-circuit électronique protection < 10 ms.
- Fondu-enchaîné 0-30 sec. entre les présélections, réglable individuellement pour les présélections 1-4, 5-8 & 9-12.

SEGULA**

AUTOMATISCHE DIMINSTELLING

- De universele dimmer herkent automatisch of de aangesloten belasting d.m.v. fase aan- of afsnijding gedimd dient te worden.
- Dimmer is bruikbaar als 2x 700 Watt of 1x 1400 Watt.
- Dimmers zijn in staat om piekstromen te verwerken van 2x 8A of 1x 16A.

INGEBOUWDE OSCILLOSCOOP

- Betrouwbare installatie
- Realtime inzicht in o.a. spanning, stroom, temperatuur, belasting, etc.
- Automatisch of zelf instellingen bepalen via de **GRATIS** software.

REGLAGE D'INTENSITE

- Le variateur universel reconnaît automatiquement si la charge connectée doit être diminuée au moyen de la phase ou si cela doit être varié via la coupure.
- Le variateur peut supporter 2x 700 Watt ou en 1x 1400 Watt.
- Les variateurs sont capables de supporter des courants de pointe de 2x 8A ou 1x 16A.

OSCILLOSCOPE INTÉGRÉ

- INSTALLATION FIABLE
- APERCU EN TEMPS RÉEL de la tension, du courant, de la température, de la charge, etc.
- Laissez le dimmer déterminer les paramètres ou faites vos propres réglages grâce au logiciel **GRATUIT**.

Dimmers

Dit assortiment LED dimmers is uitgebreid getest met de Segula en Perluci LED lichtbronnen. Ze garanderen een lichtbeeld en dimgedrag dat recht doet aan de uitstraling en kwaliteit die u van ons mag verwachten. Een zorgeloze keuze dus!

De dimmers hebben state-of-the art elektronische en digitale dimtechnieken en werken volgens het principe van faseafsnijding (R,C). Dit waarborgt de dimkwaliteit en de levensduur van de lichtbron én de dimmer.

Enkele tips om een optimaal dimresultaat te bereiken:

- Gebruik dimmers met een laag aanvangsvermogen. Dat is vooral belangrijk als u LED filamentlampen goed wilt dimmen. Al onze dimmers beginnen bij 1 Watt.
- Let op de powerfactor (Pf) van de lampen. Deze bepaalt mede de maximale belastbaarheid van een dimmer. Hoe hoger de Pf is, hoe meer lampen op de dimmer kunnen aangesloten worden. Alle LED lichtbronnen van Segula en Perluci hebben een $Pf > 0,9$ (maximale waarde = 1).

Variateurs

Cette gamme de dimmers LED a été largement testée avec les ampoules Segula et Perluci. Ils garantissent un rendu clair et un dimming parfait digne de la qualité que vous pouvez espérer de notre marque. Un choix sans soucis! Les dimmers utilisent des techniques dernier cri et fonctionnent selon le principe de la coupure de phase (R, C). Ceci garantit la qualité du dimming et la durée de vie de l'ampoule et du variateur.

Quelques conseils pour obtenir un résultat de dimming optimal:

- Utilisez des dimmers avec une puissance initiale faible. Ceci est particulièrement important si vous souhaitez varier au minimum les ampoules LED. Tous nos dimmers commencent à 1 watt.
- Notez le powerfactor (Pf) des lampes. Cela détermine en partie la capacité de charge maximale d'un dimmer. Plus le Pf est élevé, plus le nombre d'ampoules pouvant être installées au variateur est grand. Toutes les ampoules de Segula et Perluci ont un $Pf > 0,9$ (valeur maximale = 1).

Dimmers

This range of LED dimmers has been extensively tested with Segula and Perluci LED light sources.

They guarantee a light image and dimming performance that does justice to the appearance and quality you can expect from us. A carefree choice, therefore!

The dimmers have state-of-the art electronic and digital dimming technologies and work according to the principle of phase cut (R,C).

This guarantees the dimming quality and lifespan of both the light source and the dimmer.

A few tips to achieve the best possible dimming result:

- Use dimmers with low initial power. This is especially important if you want to dim LED filament lamps properly. This is especially important if you want to dim LED film lamps properly. All our dimmers start at 1 watt.
- Pay attention to the power factor (Pf) of the lamps. This partly determines the maximum load capacity of a dimmer. The higher the Pf, the more lamps can be connected to the dimmer. All LED light sources from Segula and Perluci have a $Pf > 0.9$ (maximum value = 1).

AMARCORDS®

Italiaanse fabrikant met productie van hoogwaardige designverlichting in Milaan.

Amarcords is misschien niet het grootste bedrijf in omvang, maar blinkt uit in kwaliteit, afwerking en originaliteit. De vele kleurencombinaties van het Mono-fase railsysteem zorgen voor zeer eigentijdse creaties en heel veel mogelijkheden.

Fabricant italien produisant des luminaires design de haute qualité à Milan.

Amarcords n'est peut-être pas la plus grande société, mais elle excelle en termes de qualité, d'exécution et d'originalité. Les nombreuses combinaisons de couleurs du système de rails Monophasé permettent des créations très contemporaines et offrent énormément de possibilités.

An Italian manufacturer with production of high-quality design lighting in Milan.

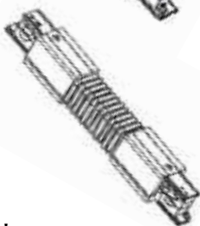

Amarcords may not be the biggest company in size but it excels in quality, craftsmanship and originality.

The numerous colour combinations of the Monophase track system provide very contemporary creations and lots of possibilities.

QAMAR – MB200

IP54 Battery Powered Table Lamp.

Touch dimmable metal table lamp. Double light source, an indirect lateral table washer and a central vertical one to illuminate a bottle and exploit the natural element of water as a diffusion of light. The base is available in 10 different finishings and each Qamar can be delivered with a beautiful water bottle that is made in Germany.

This product already won an innovation award and is off course made and assembled in Italy. Each Qamar has an autonomy of minimum 8h and is fully rechargeable with a mini-usb connector cable that is delivered with the lamp.

CHECK OUR COMPLETE CATALOGUE OF AMARCORDS

WWW.QUALITY-LEDS.COM

Deze Belgische ontwerper met eigen productie in de Belgische Ardennen is echt het ontdekken waard. Niet alleen worden deze volledig houten pareltjes gemaakt zonder lijm of schroeven, ze vullen ruimtes en doen monden openvallen. Om het helemaal duurzaam en ecologisch te maken wordt er voor elk geproduceerd armatuur een boom gepland, kan het nog beter?

Ce designer belge dont la production est située dans les Ardennes, mérite vraiment d'être découvert. Non seulement ces bijoux en bois sont fabriqués sans colle ni vis, mais ils remplissent les espaces et ne vous laissent pas indifférents... Pour que ce soit totalement durable et écologique, un arbre est planté pour chaque luminaire produit, peut-on faire mieux ?

This Belgian designer with its own production in the Belgian Ardennes is really worth discovering. Not only are these all-wood jewels made without glue or any screws, they fill spaces and make mouths drop open. To make it completely sustainable and ecological, a tree is planted for each luminaire produced, can it get any better?

think paper

 HANDMADE
IN THE NETHERLANDS

COMPANY

Think Paper ontwierp The Dutch Tulip in opdracht van de Rijksdienst voor Ondernemend Nederland. Dit paviljoen werd gepresenteerd op het WorldSkills event in Leipzig en was volledig vervaardigd uit karton. Maar liefst 200.000 bezoekers bezochten The Dutch Tulip. Het spectaculaire concept wordt nu vertaald naar exclusieve producten, geïnspireerd door passie voor design en ongewone duurzame materialen. Tot op de dag van vandaag heeft Think Paper een uniek portfolio gecreëerd met exclusieve producten en op maat gemaakte objecten voor zowel de zakelijke én de particuliere markt, nationaal en internationaal.

Think Paper a conçu The Dutch Tulip pour le compte de l'agence néerlandaise pour les entreprises. Ce pavillon a été présenté à l'événement WorldSkills à Leipzig et était fabriqué entièrement en carton. Pas moins de 200 000 visiteurs ont visité The Dutch Tulip. Ce concept spectaculaire est désormais proposé en produits exclusifs, inspirés par une passion pour le design et les matériaux durables et peu utilisés jusqu'alors à cet effet. Think Paper a créé une gamme unique comprenant des produits exclusifs, des objets personnalisés pour le marché, les entreprises nationales et internationales.

Think Paper designed The Dutch Tulip on behalf of the Rijksdienst voor Ondernemend Nederland. This pavilion was presented at the WorldSkills event in Leipzig and was entirely made of cardboard. No fewer than 200,000 visitors visited The Dutch Tulip. The spectacular concept is now being converted into exclusive products, inspired by passion for design and unusual sustainable materials. To this day today, Think Paper has created a unique portfolio of exclusive products and tailor-made objects for both the commercial and private markets, nationally and internationally.

KRAFTS COLLECTION

Het woord KRAFTS staat voor Kraft (met een K), de stevige papiersoort die wordt gebruikt als toplaag. En Craft (met een C), wat betekend professioneel met de hand vervaardigd. De KRAFTS zijn zo ontworpen om ieder interieur te complementeren met hun warme, sfeervolle en elegante uitstraling. Elk van de KRAFTS wordt milieuvriendelijk, maatschappelijk verantwoord en vakkundig geassembleerd in Nederland. Door de combinatie van de modernste technieken en het verfijndste handwerk is het mogelijk om een bijzonder patroon te creëren welk een uniek effect geeft aan elke ruimte, omgeving en gelegenheid.

Elk ontwerp heeft zijn eigen identiteit. Welke stijl je ook hebt, je zult altijd een KRAFT vinden die bij je past.

KRAFTS avec un K signifie qu'une couche de papier renforcé est utilisée pour la couche supérieure. Craft avec C mentionne l'aspect manuel et professionnel de la fabrication. Les KRAFTS sont écologiques, sur mesure, professionnels, éco-responsables et fabriqués aux Pays-Bas. Grâce à la combinaison d'une technologie à la pointe et d'un travail soigné, il est possible de créer un motif spécial avec effet unique pour chaque espace ou environnement.

Chaque design a sa propre identité:
il y a toujours KRAFT qui convient à votre style.

The word KRAFTS stands for Kraft (with a K), the firm type of paper used as the top layer. And Craft (with a C), which means professionally handmade. KRAFTS are designed to bring a touch of warmth to any interior. Each of the KRAFTS is environmentally friendly, socially inclusive and professionally assembled in the Netherlands. Through the combination of state-of-the-art techniques and the finest craftsmanship it is possible to create a special pattern which will bring a unique effect to any space, environment and occasion. Each design has its own identity. Whatever style you have, you will always find a KRAFT that suits you.

think paper

KRAFTS NUANCED SERIES

De genuanceerde Krafts modellen zijn de ware klassiekers binnen de collectie. Het patroon lijkt misschien volledig willekeurig. Echter is elk patroon zorgvuldig door Think Paper samengesteld en is elk specifiek model telkens weer identiek. Het genuanceerde patroon varieert tussen open en gesloten, licht en donker. De modellen in deze collectie verlichten hun omgeving 360 graden en zorgen voor een tijdloze uitstraling. Het verfijnde patroon zorgt voor een adembenemend uniek licht effect in elke ruimte of omgeving.

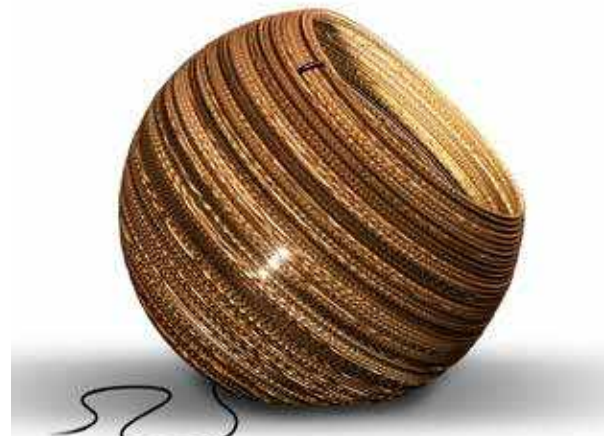

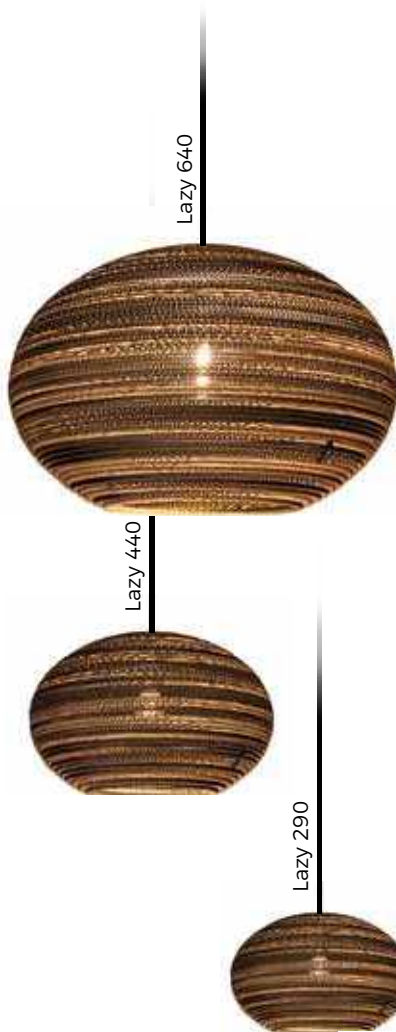

Les modèles Krafts nuancés sont les véritables classiques de la collection. Le motif peut sembler complètement aléatoire. En réalité, chaque modèle est soigneusement élaboré par Think Paper.

KRAFTS SPIRAL SERIES

De spiraal gevormde Krafts modellen zijn uniek. Bekwaam handwerk en kwaliteit zorgen voor elegantie en verfijning dat je ziet schitteren in elk ontwerp. Het patroon is zorgvuldig door Think Paper samengesteld en is in elk specifiek model telkens weer identiek. De spiraalvormige golven creëren een contrasterend effect dat zorgt voor een open en gesloten structuur en varieert tussen licht en donker. De modellen hebben een ongekend elegant charisma en hebben vanuit iedere hoek bekeken een andere adembenemende uitstraling

Les modèles Krafts en forme de spirales sont uniques. Le savoir-faire et la qualité garantissent l'élégance et la sophistication que vous retrouvez dans chaque design. Le motif a soigneusement été mis au point par Think Paper ; il est identique dans tous les modèles. Le mouvement en spirales crée un effet contrastant qui assure une structure ouverte et fermée, qui alterne entre lumière et obscurité. Les modèles ont un charme élégant sans précédent, un look inégalable sous tous les angles.

The spiral-shaped Krafts models are unique. Skilled craftsmanship and quality ensure elegance and sophistication that you see shining in every design. The pattern has been carefully composed by Think Paper and is identical in each specific model identical every time. The spiral waves create a contrasting effect that creates an open and closed structure and varies between light and dark. The models have an unprecedented elegant charisma and when looked at a different breathtaking effect.
